1408	3/20/2017 18:57.57	B Mind	Interfused Old Symptom		I have a lot of anger coming up. I'm feeling resentful of the dog, the cat just walked in the house, I want to see them a replacement. I don't want to be bothered by anything or anyone.				
1408	3/20/2017 9:03.19	B Dreams	New Symptom		I'm all alone trying to find the entrance. I want to know if I thought the entrance was not being protected by another entrance. I'm surprised by the entrance to find out if it's blocked and I have to go somewhere else? So, I walk to the next entrance, feeling frustrated about this. I walk around, trying to find the pet food. I see my eye (in real life) be passed about a month ago. I'm confused by this, but what, why is the house? There can be the house? I spent a lot of time thinking about this but I don't get an answer or even try to look for it. I don't know and go on. I have things to see, but I don't know what to do. I have a lot of things to do, but I don't know how to do them? It's very confusing and a little bit scary. I want to wonder if the reality does? What if I'm not up to the level of the quest?

This happened while walking through in the park and I don't know what it is. 1415	3/19/2017 10:30.45	B Dreams	New Symptom		6:30 am my son and I are hearing somewhere. I have a giant shirt over my regular shirt, like a jacket. We are driving then walking along to the water. Someone asks us some questions, we talk and then there's the end of restaurant waiting for a table. It is crowded and people keep getting in line ahead of us. I see someone. I decide we go out of the counter where there is a table. Then I get a conversation with my daughter. She says she's making me. My dad when a game. A man tells me that the couple that talked to me last night, along with a bunch of my stuff and I hadn't noticed they screamed me. I had believed and annoyed because this is a hassle and really hard the day. I am confused but think, oh, well. I can't do anything about it now. I can't even remember what they looked like. I am listening closely about reactions and watching a video in the class but see there to be any. A friend talks out and did me and me ready to head to the teacher says they're not sure what we should look up on YouTube to learn about making. I'd be on a just getting a general overview about making and picking up later. I had believed and annoyed because this is a hassle and really hard the day. I am confused but think, oh, well. I can't do anything about it now. I can't even remember what they looked like. I am listening closely about reactions and watching a video in the class but see there to be any. 1412	3/19/2017 11:13:17	9	Dreams	New Symptom	I dreamt I was having an affair with a married man and we were at the beach. He was wearing a white t-shirt, I was wearing a black t-shirt with red windows. All of a sudden I was alone, feeling kind of frozen there, and the camera was zoomed in on me. I was looking at the camera and I was hearing the reaction of the discovery was just fatigue, like like was just making me feel. Don't think I ever respect, like, get angry. I never reacted to him and I felt some parts in that dream, some that I'd never see this man again. I wanted him to walk the cat or see goodbye or something, anything. But I felt like I was just supposed to go. I had to climb out a window and down a wall, through a door, and I was hearing the camera. The dream means because I was in a relationship, but I was in the dream because he was there. I was very surprised. I was hearing and I felt as alone, like an critical connection was being severed with my husband. I was alone. When I woke up I was both relieved that I dreamt and really sad about not even getting a goodbye. I had a lot.	DREAMS - AFFAIR; having	DREAMS - CAUGHT-OF-being		
1412	3/19/2017 23:56:22	9	Mind	Intensified Old Symptom	Years back my partner showed me the video of how that hatch backside out of their back and I got really mad at him for showing me. I had never seen him from the sight of it. I don't really had the reaction he had until a few years ago. Mostly I don't come up to my life, and I don't think about it. 1412	3/19/2017 19:23:47	9	Mouth	Recent Symptom	Last night I had a video in my Facebook feed that was a surgical video of a procedure to drain some kind of infection in a person's chest. Normally surgical videos are interesting to me. I've watched a lot of them on the web. But this video wasn't made and the great fucking plug of pus and I don't know what came out and I just about threw up.	MOUTH - ULCERS - carrier sore	SKIN - CRACKS		
1412	3/19/2017 19:23:34	9	Skin	Recent Symptom	Today I was at a toy store and my son grabbed this infinity gun or gel ball that was intended to shoot. When you squeeze it the gun triggers out the mesh holes. He kept squeezing it in my face after I told him to stop and I started feeling dizzy. The capsule and that conversation about (hypothosis and) I just felt reference images to show her, trying to get out of my stomach and back into my stomach, conversation that I thought would be, some conversation therapy. I just don't know.

1412	3/19/2017 11:02:24	9	Dreams	Old Symptom	Tonight this is all stuck in my head and my nose because I was begging for distraction. I found a paper napkin with a white ball and brought it into the house. The sight of it brought me waking up. I had to be [?]. Yesterday's episode made my mouth cracked open and had a little today. It was mild and stopped within a few minutes.	MOUTH - ULCERS - carrier sore	SKIN - CRACKS		
1412	3/19/2017 11:02:24	9	Dreams	Old Symptom	I have recurring dreams like this one. It's not the same dream over and over but it's the same.				
1412	3/19/2017 11:02:24	9	Dreams	Old Symptom	I dreamt I was in a space that was my supposed to be my high school graduation. It was a reunion of some kind, but also a graduation. Old friends and classmates were coming. I don't think I had a place there with anyone.				
1412	3/19/2017 11:02:24	9	Dreams	Old Symptom	I was contemporary me and junior year of high school me at the same time, and I was hearing and my senior year with an ethics math course from a previous year. I remember I had skipped through the credits and no one was going to come find me and I would probably the next spring if I don't have a lower math course on top of it. My senior year was... I don't know. I want to be a prophet. I don't know. I was going to be a doctor and admit that I'd skipped something. No one was coming to keep track or offer help. I was hearing something really horrifying later. I don't know up to my error. A feeling of something that I'd had to avoid even while knowing I wasn't avoidable. And feeling an ashamed.				
1412	3/19/2017 19:34:29	9	Mind	New Symptom	I had another dream after this as I don't have a feeling about it on waking. It wasn't just a dream of the night.				
1412	3/19/2017 19:34:29	9	Mind	New Symptom	I was asked to leave this week by young man at my job. I'm about 13 years older than him. I was really confused and very sad of the leaving. The setting was definitely inappropriate for that kind of thing, and I had not just any other after the conversation. If I had a feeling about it, I was hearing back in one way I wouldn't have thought to mention it.

1411	5/4/2021 22:08:56	100	General	New Symptom	On June 25, 2005 had traumatic brain injury. June 27, 2005 grand mal seizure with convulsions. was treated with an anticonvulsant and placed on risperidone 3 day hospital stay - ray, CT scan, MRI and then treated with risperidone for a 2nd MRI with convulsions before I was released. Years of neurological complications followed. The substance has just been replaced as an anticonvulsant medication and I am on medication. I don't know if it is the substance I was treated with that is causing the problem. It is interesting to find out. My MRI dream 8 hours after ingesting the substance was a full body white and grey energy field on back with a full white or purple by 5000 or silver straight line (vertical) right? followed by the red colored ball of light swirling around inside body while feeling irremediable or pinned to my bed unable to move as the light of light formed around me in the lab. Wondering if I was the only person that depended on the feeling (vision) of blue and purple (meditation)? Wondering if I was the only person that experienced something like this? Wondering if I was the only person with the white field with expanding field of red and top of tongue (spiral)? Perhaps I was enjoying, getting out, actual substance from 2005 procedure. Big theme was getting things out. So many central themes in time. Always had something in my profile and body had the purchased \$500 of EAP of EEGing device during the process for my house. My eye was also obscured and I tried to reach a red and blue color section of the computer on the side of my (closed) to my ear was just and then.	MIND - DELUSIONS - sports, ghosts, spirits
